**Special Observatory at Night**

A collaboration between music and the nightscape.

**Every week, various sorts of regular events are produced now on the specially set up stage on the first floor of the Main Observatory: Club 335.**

On Wednesday and Thursday nights, live shows by the top jazz artists and the up-and-coming jazz groups are performed. And there is DJ time on Friday nights in which they broadcast the tunes requested by you "on air" to all the Observation deck.

A collaboration between Tokyo Night view and music. Enjoy your eyes on the night scene without thinking anything. And have a taste of "engawa". Relaxing in the "engawa"... you will see a fantastic space you've never seen before...
